

Drum Dried Banana Flakes & Powder

How we do it better

One Banana Ingredients are made from our own premium bananas, sustainably grown in our certified banana plantations in Guatemala. The balanced taste of our natural ingredients is the result of our bananas being cultivated in the tropical micro climates and fertile volcanic soils of this country.

About our Drum Dried Banana Flakes & Drum Dried Banana Powder

100% fresh bananas that are ripened to the exact degree, hand peeled, sifted, heat treated, drum dried and milled. The raw materials used are high quality Cavendish variety bananas grown in our own farms in Guatemala and ripened in ripening rooms under controlled conditions. No added sugars or additives.

Applications

Baby food, cereals, muesli and granolas, breakfast cereals, baked goods, energy bars, dried fruit preparations, yogurt, dressings and pet food. Our Banana Flakes can be used as binder to help viscosity, add natural sweetness and flavor, and as a fat replacement.

Facts and information

With only 50g of One Banana Flakes or One Banana Powder you can have more fiber, protein, calcium, iron, potassium and phosphorus than a raw whole banana (160g)

With the increase of healthy claims like vegan, sugar reduced, natural sugars, more fiber and "better for you" products, we offer these innovative options to you, so you can comply with your consumer needs.

Storage Conditions

24 months, store in dry conditions between 15°C and 27°C

Country of origin: Guatemala

Key Benefits

- 100% Pure Banana
- No added sugars or additives
- Not treated with ionizing radiation or irradiation
- Nutrient dense
- Natural sugars
- Natural / Clean label
- Gluten and Allergen free
- Non GMO
- Upcycled
- Certified Kosher and Halal

Packaging

One Banana Flakes are available in 18kg or 20 kg double HD PE bag and carton.

One Banana Powder is available in 25 kg double HD PE bag and carton.

Allergens

Components	Y/N
Peanut or its derivatives	N
Tree Nuts, macadamia nuts, pecans, pine nuts, pistachios and walnuts or their derivatives	N
Sesame or its derivatives	N
Eggs or its derivatives	N
Fish or its derivatives	N
Crustaceans and shellfish or their derivative	N
Soy or its derivatives	N
Wheat, triticale or their derivatives	N
Mustard or its derivatives	N
Milk or its derivatives (e.g. Lactose)	N

Organoleptic properties

Appearance	Creamy yellow. Free-flowing powder or flake
Odor	Typical of ripened bananas
Taste	Typical of ripened bananas
