

NATURAL[®] GREEN

NaturAlt[®] Green line offers the benefits of **green** tones from natural sources (Chlorophyll) but with the necessary stability to maintain its intensity and chromaticity after the thermal processes used in the food and beverage industry.

Our appetizing **Green** hues will provide your product with a desirable and irresistible appearance to consumers looking for a product designed to meet market trends, such as the use of Natural Ingredients, complying with the legal framework and providing a clean label by being free of artificial colors.
