Macarons

Macarons

Our food scientists have formulated their own version of a French macaron. Macarons are thin gluten-free, flavorful almond-based meringue cookies sandwiched with a smooth buttercream vanilla filling.

Sustainability is one of the leading top trends we have identified in the food and beverage industries. We featured our partner Borregaard's sustainable plant-based vanillin. Borregaard has produced vanillin from Norway spruce trees since 1962, sourced from sustainably managed forests¹. The EuroVanillin® Supreme imparts a broader and creamier flavor than oil-based vanillin, with a 20 % boost in aroma and intensity. The filling incorporates EuroVanillin® Borrebon, reminiscent of old-fashioned vanilla with a 1:1 intensity to traditional vanillin. The two Borregaard's ingredients provide a clear label option without comprising intensity or flavor.

This international treat features naturally sourced color Oterra's Hansen sweet potato™ ColorFruit® Red 108 WSP. It is an excellent alternative to the most sought-after carmine or synthetic FD&C Red #40.

Ingredients

Sugar, Egg Whites, Almonds, Butter, Water, Sea Salt, Cream of Tartar, Vegetable Juice (color)*, Vanillin* **Allergens:** Egg, Almond, Dairy
