

HORIZON GRAINS LTD.

Company Profile

Our Story

We established in 2010 as Horizon Canada Limited based in the heart of Canada's Agriculture region. Being located in Calgary, we have the advantage of 2 major Canadian Railway operators, CN Rail and CP Rail who both have an extensive destination coverage from Calgary, that offers the best freight rates for us to ship to Canadian ports. Which helps us to make sure our products are shipped to you in an appropriate timeline.

We are focused to buy quality grains for our customers. We provide competitive prices along with outstanding services for whatever your commercial needs are. We work directly with Alberta and Saskatchewan Farmers, with who we have dedicated, personal connections with, to ensure that your supply is coming directly from the best growers in the region.

Our team of experts will always be present from the time of loading from the farm, to the processing of your grains, to the packaging procedure, and finally to be seen loaded in shipping containers for its destination.

Our goals are to meet our customer's requirements on time, to satisfy and exceed the expectations of our customers.
